Excerpt: . . . method with the one who does not understand numbers. These children are not making any remarkable progress, but are slowly and surely improving. It takes infinite patience and perseverance, but there is a satisfaction in helping these poor little darkened minds that makes it seem well worth while to do the extra work. I always go back over all the work they have ever had and try to get them to understand one step before the next one is attempted. Have these children had a physical examination You know quite often it is found that retarded children are suffering from some physical ailment that can be easily corrected. John had adenoids, which prevented his learning when he first started to school and after they had been removed he could have learned if anyone had taken the pains to start him. I should be very...
