

Laboratory Manual of Biomathematics (Paperback)

By Raina S Robeva, James R Kirkwood, Robin L Davies

Elsevier Science Publishing Co Inc, United States, 2007.
Paperback. Book Condition: New. Lab Manual. 269 x 216 mm.
Language: English . Brand New Book ***** Print on Demand *****.
Designed as supplemental material to the textbook, An Invitation to Biomathematics , this laboratory manual expertly aids students who wish to gain a deeper understanding of solving biological issues with computer programs. This manual provides hands-on exploration of model development, model validation, and model refinement, enabling students to truly experience advancements made in biology by mathematical models. Each of the projects offered can be used as individual module in traditional biology or mathematics courses such as calculus, ordinary differential equations, elementary probability, statistics, and genetics. This manual is a companion to the textbook, An Invitation of Biomathematics (sold separately ISBN: 0120887711; or as a set ISBN: 0123740290). It can be used as a computer lab component of a course in biomathematics or as homework projects for independent student work. The biological topics include: Ecology, Toxicology, Microbiology, Epidemiology, Genetics, Biostatistics, Physiology, Cell Biology, and Molecular Biology. The mathematical topics include: Discrete and continuous dynamical systems, difference equations, differential equations, probability distributions, statistics, data transformation, risk function, statistics, approximate entropy, periodic components, and pulse-detection algorithms....

Reviews

Here is the very best book i have study until now. It is rally fascinating throgh looking at period of time. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Dr. Blaze Runolfsson IV

This is the very best publication we have read through right up until now. It is one of the most incredible book we have read through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Miss Celia Volkman
