Taking Back Astronomy: The Heavens Declare Creation (Hardback)

By Dr Jason Lisle

Master Books, United States, 2006. Hardback. Book Condition: New. 231 x 185 mm. Language: English . Brand New Book. One of the major stumbling blocks to the presentation of the Gospel in our culture today involves astronomy. For decades, public school students (and even seminary students!) have been taught that the world is far older than the Bible chronology suggests, even billions of years older. This naturally causes a disconnect for people, who assume that modern science is unbiased and correct. The author debunks the most accepted teachings about evolution, giving tremendous answers for those struggling to reconcile the Bible and science. Readers are given solid answers to questions about the speed of light, geology, and the big bang. 7 x 9 Hardcover 128 pages.
